

County voter total peaks at 10,121

10,121 names were on the list of qualified voters in Hancock County by the time the list was closed at 5 p.m. today for the forthcoming primary election. The list also included names of voters who had moved into the county since the last election.

Some 3,000 more than in the last state and local election in 1963, the figure represents a 60 per cent increase in the county's population, according to the special 1966 redistricting census undertaken by the board of supervisors.

Boat 5 holds the vast majority of qualified voters, with 6,545 constituting 65 per cent of the total electorate. Another Boat 5 precinct topped the 1,000 mark this year when South Bay's count was 1,035. Previously Waveland was the only one over a thousand. It now has 1,311. When the registration list was tallied in

April, 1964, it showed South Bay at 720.

Boat 1 climbed appreciably, going from 631 a year ago to 801 today. Boat 2 climbed from 470 to 620 now. Boat 3 climbed to 620 and Boat 4 to 640.

Teacher pay is \$47,000 of \$86,709 budget hike

It will take a 15 million dollar increase to finance the Bay St. Louis Separate Municipal School District next year. The calculation is based on the \$760,303 budget adopted by the school board Monday night. School millage is already at the 25 mill maximum.

A special election is necessary to go above that figure.

The 1967-68 budget is \$86,709 more than last year's \$71,596. It is anticipated that the state minimum program fund will provide \$55,784 and other state sources \$56,850 to the remaining \$341,571.

Payroll increases of \$40,000, plus a recent local security tax increase of \$4,600 account for two-thirds of the total increase. The new budget calls for six more teachers at

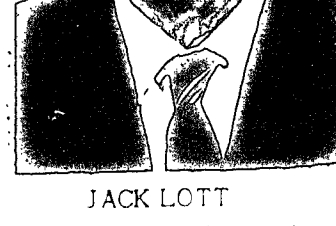

a cost of \$27,000, a \$200 salary increase for 100 teachers, \$20,000; a \$9,000 increase in wages for non-professional employees, and \$4,000 for a lunchroom supervisor, a position new to the system.

City planners eye annexed area for study

The Bay St. Louis Planning and Zoning Commission met with city commissioners on Tuesday to lay groundwork for future zoning in the city's newly annexed area.

Before computing a zoning map the planners intend to make a detailed investigation of present land uses and study the proposed roll now being prepared.

A follow-up session on the subject will be July 25 in City Hall.

Attorney General Issues Ruling Countywide Supervisor Voting

The Attorney General's ruling that voters can vote for one or more of the five candidates for countywide supervisor in the Democratic primary election is a significant step toward universal suffrage in the state.

Attorney General John McEwen has made public his ruling that voters can vote for one or more of the five candidates for countywide supervisor in the Democratic primary election. He said that the constitution does not prohibit a voter from casting multiple ballots for different offices in the same election.

McEwen's ruling comes in response to a request from the Mississippi State Bar Association, which had argued that the constitution required a voter to choose only one candidate for any given office.

The ruling is expected to lead to a more competitive and representative election process for the state's supervisors.

Erry-Co-Round

He still has strength with the Egyptian people, army is consolidating with resentment and there is danger of a real civil war when Egypt uses up its wheat stocks—which will be in about one month. The Soviet crop is large this year as last and, besides, the Russians refuse to pay the Egyptians for wheat which Washington did not. There is a U.S. wheat to save him this year.

The Egyptian people get hungry, Nasser will be out.

Khrushchev scoop

The National Broadcasting Company pumped out publicity for the network scoop of the world by obtaining movies of ex-Premier Khrushchev in retirement.

Actually, the story was dug out by Jean Gordin, editor of Parade Magazine, who included NBC in on the deal to help the network.

Under the agreement, Parade was supposed to come out with the story two days ahead of the NBC telecast. NBC, for its part, was given exclusive movies and tapes that couldn't be used in the magazine.

NBC pulled a fast one on Gordin and released details of the scoop in advance. As a result, NBC, not Parade, got the scoop.

GOP scramble

Liberal Republicans are scrambling to get themselves organized out so that their party won't have another Goldwater in its candidate next year. And so far they're having difficulty in doing so.

Gov. John Volpe of Massachusetts, for example, would like to be the Republican nominee for Vice President. To get in a position to run in the Massachusetts primary but that in New Hampshire as well. The danger is that he would pick up in these two contests would enable him to win.

But if Volpe does enter the New Hampshire primary he will be away from Gov. George Romney of Michigan—and would further hurt Romney's already dim chances against Nixon in this first primary of 1968. And if Romney is defeated by Nixon in New Hampshire it could end the end of his Presidential hopes. It also would put a serious question to the party liberals trying to get rid of their Goldwater tag.

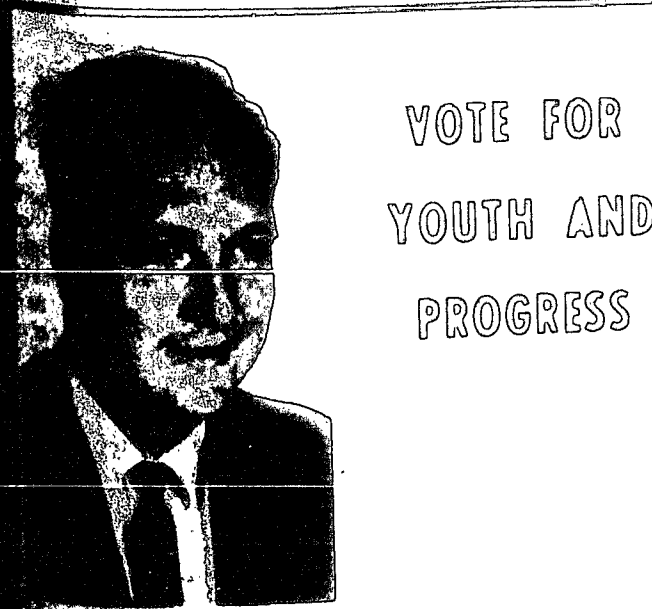

This is why Gov. Volpe was summoned to New Hampshire to talk with the vociferous Romney, and why former Gov. William Scranton of Pennsylvania used his 25th wedding anniversary this past weekend to get the party's top liberals together to try to work out their problems.

LIVED UP TO MOTTO - W.C. Rials & Son from Pass Christian found out Gerry Lane Chevrolet lived up to its motto "the only deals we miss are the ones we don't know about."

We live in Pass Christian where I have been teaching for the past twenty years. When the need for a new car arose, I started looking around. I have been needing and hearing the word "Chevrolet" and people talking about the new Chevrolet in Bay St. Louis. My son and I decided to drive over and see if they would live up to their motto "the only deals we miss are the ones we don't know about." They did, and I traded my old car in. They then made my son such a good deal on my old car he bought it back. We would like to commend our salesman Dave Sloan and all the people at Gerry Lane Chevrolet.

OVER A CUP OF COFFEE - Jim Glidewell of Gulfport was drinking a cup of coffee when Dave Sloan convinced him to try Gerry Lane Chevrolet.

I have lived in Gulfport for 10 years, and have worked for Gerry Lane Chevrolet, Inc. I was drinking coffee one morning before work and had noticed this new car parked out front. I had been looking for a new car for some time and didn't know who to deal with the people I bought my 1964 from. I told something about the new car and Dave Sloan got up, gave me a business card and proceeded to call me on the idea of changing at the new Gerry Lane Chevrolet in Bay St. Louis. Since I didn't have the car I wanted, I agreed to come over. I'm glad I did. Dave told me the car I wanted in Mobile, La. and I saved money because.

Here is why you should vote for
Arlie R. Strain

I'm honest, this is something you should be able to take for granted but nowadays and in Hancock County "it ain't always so."

I like people and am interested in their problems, large or small.

I have ability and energy. Successful operation of my business indicates that.

I can work with business. Already an industrialist connected with several major firms has told me he would look into the possibilities of expanding into Hancock County when over it has good government.

Before election time, Aug. 8, you will know my stand on specific controversial issues.

I haven't the solution to all of the problems of the county but certainly the answer is on the head of a pony, "In God We Trust."

This is what is going to happen if legislation that is being considered by representatives of some of the larger counties is enacted into law in the next regular session of the Mississippi legislature. This headline appeared in The Clarion-Ledger, Section A page 2, on Sunday June 11, 1967: "REAPPORTIONMENT WILL BRING BATTLE ON GAS TAX SHARING." Representative Russell Davis of Hinds County who is unopposed for re-election says in this article of June 11, 1967, "It will definitely be an issue in the next session."

Representative Charles Hensley of Hinds County who is a candidate for the Senate from Hinds County, predicts that legislation will be introduced early in the 1968 session to revise the counties sharing of the gasoline tax. What is proposed is that the \$150,000 ceiling which is now being used be abolished and the counties 3/16 share be reduced to 3/14 and raising the Highway Commission part to 11/14 instead of the present 9/14. This would give the Highway Commission some \$8,000,000 more each year, also more money for some of the larger counties at the expense of the smaller counties. I am opposed to this change. If enacted I shall fight for the counties to keep their share of the gasoline tax. Who of the candidates for Post 1 do you think would be in a better position to fight this proposed legislation? Someone who has had not one day's experience in the House of Representatives, or one with 4 years of experience.

If you agree with me on this issue then please vote to RE-ELECT

Wade O. Smith

REPRESENTATIVE, POST 1, PEARL RIVER AND HANCOCK COUNTIES.

the glorious (7) Fourth is history, more or less, as it goes back upon the really important occasion of the 8 primary elections which despite frantic efforts by our good Republican friends, to win the big thing in our happy little corner of the South, the big thing in national politics, is to win the big thing in the usual summer festivities, but the real action is in the political rallies, candidate sponsored barbecues and the like, and of course the church fairs. . . .

Just every fourth year, the usual contribution of the fair is the yearly cash sale of the church, and then there are the shooting matches, a something or something should happen. We want to go to the real action, but would be willing to increase by roughly 50 per cent as today day is the last of the big summer when voters of the political and their service men, women, and

month left

As it may, we still have almost a month, to worry about it, but life goes on and it's allegedly up to us to make the most of it.

Up into our ecology of the week. . . . Bobbie is a real action, although we can cast the vote at the microphone those generally proportioned. Bobbie is not really enjoying.

With Dr. E.C. Samuel a very special happy birthday cake on Friday, July 21. Although he'll have to catch the fish for the dinner he'll be eating and asphew on the big day, she's really enjoying. Relatives are the only ones officially invited, but the doctor would very much enjoy seeing any who happen to drop in on that occasion.

Bob Watson, in town on a flying business trip, and Friday, reported that Chris and Bob had been camped in to visit him and Elvira in their home, home. The Aldis's were en route to Chicago for a vacation.

Waji really is great

Mr. (Charles) Boudie reports that Hawaii is everything you could want and then some. She flew to the famed island on June 9, and spent five days with her husband and two kids who were flown in from Vietnam for the visit. She returned to his post at Cam Rahn Bay. When hez husband has plane, Charles greeted her with a traditional Hawaiian song they viewed hula shows, dined in a room, swim in the out daily, and in general had a real vacation.

and Chris Bell and some Gill and Roland, who spent a week with her parents Gladys and Silia Joanne a couple of days, will return for a two week visit Friday. The trip is over.

the dogs

Two rather serious dogs, a black and white pointer and a black and white terrier, were among the guests, and of course they brought along a gift for the guest of honor.

The Civic-Minded

As free electors we are about to exercise the privilege and responsibility of participating in the operation of government, state-wide as well as local.

That good government is essential to the preservation of our way of life is axiomatic. It is the key to the American concept and democratic system.

Not since Bienville wrote from the French territorial capital of Biloxi to his king that the colony could not survive without industry to balance its agriculture has the Mississippi Gulf Coast ever thrived as it does today.

By leaps and bounds developments have exceeded anything pioneering colonizers ever dreamed. And we are only on the fringes of our full potential, as we move into a diversified industrial expansion that gives promise of a brighter and more abundant future. Nothing will contribute more to the realization of our dreams than good government.

The years ahead demand of us dedicated men in government as well as in business, give this growing Gulf Coast County enlightened and efficient public officials and devoted civic leaders and we will come more richly and richly into our own.

The challenge faces each of us to register his convictions at the ballot box. My periodically are given this opportunity.

Suffrage is a sacred obligation. In the words of former Bishop Charles Betts Galloway of Mississippi, statesman, speaking before members of the Mississippi State Press Association: "Citizenship is practical everyday application of Christianity; should... forever banish the false distinction between the sacred and the secular. The ballot is as holy as the book of common prayer."

Voting is as sacred as all as a secular responsibility that no citizen can escape. Let's exercise it.

Tiny Mike, Marge and Mac McCutcheon's well-mannered black chihuahua, fortunately survived after being shot with a powerful charge from a high powered air rifle, but had the bullet penetrated just a fraction deeper, the wound would have been fatal. Shooting guns of any description is forbidden within city limits, but parents should take responsibility for seeing that their offspring are far out in the woods before using such weapons, and even then an adult should be around to make certain the only legitimate targets are in the line of fire.

TOOK EVERYONE'S ADVICE - Ernest J. Strong took his friends' advice and tried Gerry Lane Chevrolet. The reasonable prices and excellent service sold him to buy from them.

I have lived in and around Bay St. Louis all my life. I needed a new truck and looked around a few places and from my friends, I was advised to go to Gerry Lane Chevrolet, because of the reasonable prices and excellent after sales service. Service to me is very important, so when I saw something for my truck I didn't like to have to drive out of town and be tied up for hours or days, this is one of the many reasons for my buying locally.

Now that the kids are out of school, they're once again amusing themselves with the phone. Don't know where the mamas are, but crank calls just might have caused some trouble. Teen Times

Fourth of July weekend was just like old times. The coast was swarming with activity, much of which centered around the "hot" beach. There were beach parties, swimming and sailing parties, bonfires, and of course, spectacular fireworks displays. All of this is great and we like making memories and having a good time, but unless some precautions are taken to preserve the cleanliness of the beach, it won't be long before it's just too dirty for us. We realize that adults are well over 50 per cent responsible for the abuse in the form of litter, lack of consideration of beachfront residents and motorists in general. However, it's the youth of the community who will continue to enjoy the sand and water, and you are usually easier to reason with than litter bug out of town grown-ups, who are too busy celebrating to read the local paper anyway. About the only law presently on the books which might be of help in the \$25 fine to be levied upon anyone throwing paper, bottles, beer cans and the like anywhere but in proper containers; but as far as we know no one has ever been charged with such a crime.

off the sand. It might be fun to speed along in a souped up automobile or motor scooter, and even horses have been seen racing along the waterfront. All are dangerous for the day to day who frequent the beach, and boys and girls are the worst offenders in the above mentioned manner. So won't you please make an effort to see that the beach will be in condition for you and others to use next year, the next and for many more to come?

Lecture over, now on to news of the day.

Lots of exciting vacations have been reported, but pretty little Dalph's month long senior scout trip to New York, then to a camp near Morrisburg, Canada, and on to Expo '67 in Montreal, as the guest of Girl Guides of Canada, and a return trip to New York, sounds like the greatest to date.

In the August 3, 1967, issue the Echo will carry no advertisement bringing up new material derogatory of an opponent.

(This is the same policy that we have had for 8 years)

Actually, we hope all political ads in that issue will tell why the voters should support a candidate and not why they shouldn't.

IN CASE I SEE YOU

As the campaign closes, I realize that I can only do so every year, but I want each and every one to know that I will appreciate your support for a second year as Chancery Clerk.

As you know, the job is many sided, consisting of OFFICES IN ONE: (1) Chancery Clerk (2) County Clerk of the Board of Supervisors (3) County Treasurer (4) County Recorder. The volume of work has grown in three years, and there are simply not enough hours in the week for me to go everywhere I would like to go. Your support will be appreciated. Thank you.

HEARD OF BUSINESS - Margaret Acker of Bay St. Louis was happy to buy locally at her Gerry Lane Chevrolet dealer.

I saw this nice OK used car on our new Chevrolet dealer lot. I had been seeing the advertising and learning a lot of nice things about the service dept. they have. Since so many folks are buying at Gerry Lane Chevrolet, both from here and out of town, I knew that they had to be making good deals. I stopped and looked around. Mr. Wally Wolcott was very pleasant and helpful thru the entire transaction. I was real happy to buy and spend my money locally.

PLANK # 4
DEVELOPMENT OF JACKSON RIDGE
FOR RECREATIONAL PURPOSES

In connection with my Plank #1 on SANITATION AND BEAUTIFICATION and Plank #3 on EDUCATION, I intend to develop Jackson Ridge and the beach in front into a recreational area. The wooded area would have both facilities and 400 - 500 camp sites. The land reclaimed by the ordinary fill would be made into a parking area.

The beach will have picnic facilities. There will be a fishing pier. A carnival charge would be made for the use of the fishing pier and camp sites.

The revenues from this area would be used for its maintenance, and the surplus would go to the school to help defray the cost of establishing and operating the vocational school. It is estimated that there should be a net profit of \$50,000 or more per year available for the school.

This can be done without any additional costs to the tax payers.

(Pd. Pol. Adv.)

TO THE VOTERS OF HANCOCK COUNTY:

I would like to clarify some misunderstanding concerning the repairs to the Beach Road and particularly streets in Bay St. Louis.

As most of you know, the Board of Supervisors has been attempting to have plans approved and matching funds provided by the U. S. Government for the reconstruction of the Beach Road. These funds and approval of plans should be forthcoming shortly; however, I have volunteered and the Board has authorized me to supervise emergency repairs to the Beach Road, especially in Bay St. Louis, in order to provide some relief to the traveling public and to all of the citizens of Hancock County. These repairs should begin shortly.

I want it to be made clear that I stand ready at all times to help all of the citizens of Hancock County and to help out in the reconstruction of the Roads and Streets in Bay St. Louis, which I have so done in the past, whenever legally possible.

I pledge you my continued service on behalf of all of the citizens of Hancock County.

ROYAL HEWARD - Martin Griffin receives gift of gasolene as he-pooler commemorates day ridge over First Annual Hancock County Fishing Rodeo immediately after plunking, July 4, at Marina East, Pearl River. Others in party are, from left, Mrs. Keaney Caron, Mrs. Dan Egan, Knolle Shown and Dan J. Egan.

Rivers are still muddy. However they should clear up soon.

Just a reminder the deadline has passed! Your 1966-67 hunting and fishing licenses expired at midnight, June 30th.

Of course, a sportsman can't do much right now except fish, but he had better have a '67-'68 license to do that. There are more than 1,000 bonded licensed state agents who sell the licenses.

Licenses can be purchased at the Sheriff's office and Kingston's Barber shop locally. Louisiana licenses can be purchased just over Pearl River at Pearlington on the Louisiana side.

James Ruhr is another of our local fishermen who has some good fish stories.

Mr. and Mrs. W.J. Howard of Clomont Harbor are expecting a visit from their son-in-law and daughter, Mr. and Mrs. L.J. Muller, L.J. is an ardent fisherman and expects to hook the finny ones while here.

In the list of local shuffle board players we left out Harold Scudler. Harold likes to play the game and is a rough opponent any old time.

Larry Kronenberger of New Jersey, returned home Wednesday after enjoying fishing and golfing while a guest of relatives here. Larry looks forward to his vacations spent on the Gulf Coast each year.

Carl M. Favre better known by his friends as Bud enjoys all kinds of fishing.

Eddie Foyard, of Waveland, was in charge of the judging and other activities at the City Park Bass Rodeo recently in New Orleans. Eddie has served for the past 21 years as a rodeo judge. He makes the Foyard popping bug which is hard to beat as a fish getter for fly fishing.

Because of my sincere desire to continue the progress begun in the Hancock County School System, I hereby announce my candidacy for re-election to the Office of Superintendent of Education.

In doing so I would like to thank the people of this County for the privilege which I have had to serve as your Superintendent for the past three and one-half years. Realty leads pack as season closes

With their quota of league games complete, Southern Realty leads the pack with 13 wins and only 2 defeats in Men's Softball League play. Chateau Sau in second with 9 and 6, in fifth and six places are Lohrner's Friendly Lounge of Lakehurst and Anthony's Men's Wear, both with records of 5 and 10.

Last night's final league game between Tropicant and Trevira Construction will bring those two teams up to quota. As the end of play Monday they are in third and fourth position respectively with records of 8-6 and 4-10.

If Trevira beat Tropicant then a three way tie for third place will ensue. If Tropicant come out ahead they will tie with Chateau Sau for second slot.

Whichever way the ball bounces play-off games will be necessary and these will decide the order before the top four teams can begin elimination play for the city championship.

In league games last week, Claude Variorough with a home run in the top of the eighth inning with two men on base, put three big runs on the board for the Southern Realty in the first game Wednesday night. His team's final score was 13-9 over Anthony's.

Leading pitcher for Anthony's was J.E. Lohrner while Variorough was credited with the win.

Victory from their railroad oriented colleagues Chateau Sau, in the second half of the hour and finished up with 10 runs on 19 hits compared to

Lohrner's 2 on 10.

NEEDED FOURWHEEL DRIVE - Charles Ladner works for the State Highway Dept. and he needs a vehicle that will go almost anywhere. He found what he wanted at Gerry Lane.

I live in Bay St. Louis and work for the State Hwy. Dept. I have been hunting and fishing around here all my life. Where I go I need a vehicle with four wheel drive. I found just what I wanted at our new Chevrolet Dealership here at home. Mr. Dave Sloan showed me the car and met my terms. It took three weeks of "horse trading" but we finally got together to the satisfaction of everyone. If you like to swap cars, knives, horses or anything else. See my new friend and salesman, Dave Sloan, that old Alabama boy has got gift of horse trading.
